DiSC® – Team Dynamics is a professional development and personalized learning experience that benefits every person in the organization in building more productive and effective relationships at work. It teaches participants to **understand** themselves and others, while learning to **appreciate** different priorities, preferences, and values each individual brings to the workplace. With personalized insights and actionable strategies, participants learn how to **adapt** to the style of others, ultimately improving engagement, collaboration, and the overall quality of the workplace.

The Everything DiSC Workplace Profile provides participants with valuable insights that unlock engagement and inspire effective collaboration. In this personalized profile, participants will explore the priorities that drive their behavior, learn what comes naturally and what might be challenging when interacting with others, and gain actionable strategies to strengthen their interpersonal interactions at all levels in the workplace.

Using dynamic facilitated activities, participants walk away from the seminar with a deeper understanding of their personalized profile and a memorable experience that inspires lasting behavior change that understands, appreciates and adapts to the various styles.
