 Participant Numbers: Onsite up to 10, Online up to 100
 Participants: anyone in a supervisory, management or leadership role

Our seminars are all *modular* by design – meaning that they are highly customizable to suit your exact needs. We partner closely with you to ensure we completely understand your desired outcomes. We invest the time to ensure we understand your organization and tailor the pre-work, seminar, and post work to get you the results you want.

The Train-the-Trainer program is a highly participative full-day seminar designed to teach participants the skills and techniques to design, prepare and deliver highly engaging training.

During the seminar participants will identify different learning styles and understand the role of adult-learning theory. In addition, classroom management will be addressed outlining how group dynamics impact the design and delivery of a training session. Participants will discuss the difference between facilitation and presenting; identify the benefits of each and determine the best use of visual aids and tools for each course they deliver.

To ensure each participant is confident in implementing the key techniques covered during the day, there will be plenty of opportunities to practice new skills throughout the day which will include peer reviews and feedback from the facilitator.

By the end of the seminar, participants will have developed principle-based skills that can be quickly applied to ensure they deliver training that is highly impactful.
