We are able to serve your organization with keynote addresses delivered by experienced and engaging speakers who are passionate about their subject areas.

Each keynote address is customized to your specific organizational needs and can be tailored to the available time - typically our keynote assignments are either in the 45 minute or 90 minute range.

We have found no limit on numbers. Our speakers are experienced to be able to engage audiences of any size.

The greatest compliments we often hear about our keynotes is when attendees say things like: *"Inspirational and practical"* or *"Purposeful and fun!"*

Good coaching can literally be a game-changer for some individuals; their teams and organizations.

Most of our coaching assignments have been in the areas of communication skills, leadership development, time management, and improving business acumen. Our coaching is highly customized to the individual.

The coaching can be delivered onsite or at our offices, whichever best suits the person. We can also conduct coaching remotely by use of video conference.

We may recommend a behavioral assessment tool such as DiSC, MBTI, TKI or 360 depending on the assignment.

On-Demand eLearning: we have the necessary instructional design experience to be able to partner with your organization, to create completely original content, tailored specifically to your brand, culture and values.

Our Digital Learning Designers have developed engaging content for clients using a wide range of authoring tools and design software including Articulate, Captivate, Camtasia, Gomo, and the Adobe Creative Cloud.
